Auckland, Christchurch, Dunedin, Queenstown

Resource Management

Anderson Lloyd has a leading team of experts that provide the highest quality, specialist legal guidance on all aspects of natural resource use and urban development.

ANDERSONLLOYD

andersonlloyd.co.nz

We'll make the right call.

SOEs, iwi, councils, developers, public interest groups, publicly listed companies and individuals throughout NZ trust us with their big and small challenges, because we are problem solvers and find durable solutions.

Our approach

We have earned our clients' trust with our hands on approach and well integrated and seamless project teams. Our cases are comprehensive and compelling. We are efficient, cost effective, smart and get ahead of the game. We have a reputation as innovative problem solvers.

Many of our projects have high levels of public interest. We know the importance of community consultation, we work with stakeholders and we know our way through bureaucracy. A strong part of what we do is the integrity which we bring to our advice and to the legal processes in which we engage. We plan our strategies so that our outcomes last, both from a commercial and a community perspective.

We also believe in giving back to the community. Our partners and staff have governance roles in a number of recreational, cultural and environmental organisations.

Our expertise

We have succeeded on some of the country's most complex, controversial and difficult projects in recent times.

These successes include a wide variety of projects in the energy, mining, property development, agribusiness, aquaculture, conservation and tourism sectors. We also assist local authorities and infrastructure providers on community and public infrastructural issues.

Unlike many lawyers, our objective is to stay out of Court. But when we need to be there, we fight hard to win.

With unparalleled combined experience in the sustainable development and protection of New Zealand's resources, we are up for the double challenge of growing NZ's wealth and protecting those values which underpin our wellbeing. We have helped hundreds of clients to achieve their goals. Trust us to help you achieve yours.
